Subject: Proposed settlement

Dear Sirs and Madams,

The more I hear about the settlement that Microsoft is proposing, the less I care for it.

Microsoft is to be punished for their unfair practices. They should not be allowed to expand their market share, i.e., monopoly, in the educational sector.

I want my voice to heard, so I am asking you all to not accept the proposed settlement. It does the consumer and the student a disfavor.

Sincerely,

Christopher Kupec
